Art Unit: 2667

Reason for Allowance

- 1. Claims 1-23 are allowed over prior art.
- 2. The following is an examiner's statement of reasons for allowance: Although the prior art of Trans et al teaches monitoring and increasing channel speed, security and intelligence of wire-line and wireless systems as associated with switching and routing techniques, whereby the transmission is monitored, and Domoto et al who teaches monitoring transmission and reception associated with a display system for a telephone exchange system that utilize lane codes, they fail to teach or suggest transmitting multiple control symbols and lane identifiers onto a link, time-division multiplexing control symbols and lane identifiers onto a link, and rotating a lane assignment if a received lane identifier does not match the identity of the reception lane that is being monitored.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Prenell P. Jones whose telephone number is 703-305-0630. The examiner can normally be reached on 9:00-5:30.
